

YOUR VENTURE STORY MADLIB

Fill in the madlib below to get some buildling blocks for your story. Elements of your venture story will show up in advertising, on your website, in investor pitches, and elsewhere. Notice where you are less confident about what you're saying, or still have questions. This can help you identify questions you have and places where your team has different answers and assumptions. Then you can prototype and build evidence for those areas.

(venture's name)		ing to(big-ass world-changing vision)
